# TO UNFORTUNATES WHO KNOW ME

---

## The Following Secrets I am Confiding Only in You

---

**I** HAVE decided to start Nursery Life anew. After 21 years on York Boulevard, I realize that dishonesty does not pay; selling Orange for Walnut Trees, Peach for Grapefruit, a man would have to look for new "suckers" and that is just what I am doing but need your help.

This confession is not for serious-minded young folks but for the easy-going, light-headed older ones. By talking serious to you, I know I will get your attention, and oh, how I need it!

Every dollar you spend with me at New Location, will go for labor or material for next two years. Will make it a Beauty Spot, but first, we need your trade.
